

ISCAS 2017

BALTIMORE, MD, USA | MAY 28-31, 2017

from Dreams to Innovation

Call For Papers

This year's meeting will highlight the following innovation themes:

- Internet of Things
- Cognitive Computing & Deep Learning
- Hardware Security
- Brain: Innovative NeuroTechnologies
- Analog and Digital Senses
- Autonomous Vehicles, Robotics, and UAVs
- Smart Buildings and Cities

We invite contributions in all areas of Circuits & Systems, including the following topics:

- Analog and Mixed Signal Circuit and Systems
- Power and Energy Circuits and Systems
- Biomedical Circuits and Systems
- Sensory Circuits and Systems
- Neural Networks and Neuromorphic Engineering
- Nonlinear Systems and Circuit Theory
- Digital Circuits and Systems
- Communications Circuits and Systems
- Beyond CMOS: Nanoelectronics and Hybrid Systems Integration
- Digital Signal Processing
- Visual Communications & Multimedia Signal Processing
- Education in Circuits and Systems

The world's premier networking and exchange forum for leading researchers in the highly active fields of theory, design and implementation of circuits and systems. This meeting will focus on the connection **from Dreams to Innovation** with the aim of cultivating creative research-driven Ideas in Circuits and Systems as they transition to Innovations and fuel economic development.

Please see the conference web site for paper submission instructions and registration information.

Special Session proposals: November 4, 2016
Submission of 4-page papers: November 18 2016
Live Demonstration proposals: December 16, 2016
Tutorials proposals: January 13, 2017
Notification of accepted papers: February 17, 2017
Final Submission deadline: March 17, 2017
